

CHRISTMAS COLLECTION 2019

PROFESSIONAL TABLE TOP

Last year, we
**raised £29,958 for
Shelter** – enough to
help 10,000 people.
Let's do it again
this year!

FESTIVE FEEL-GOOD FACTOR

Last year, Spirit of Christmas crackers sparked a mindful new festive tradition, by helping to fight homelessness and excess waste at Christmas. Recyclable once-used, they are made of renewable materials with no plastic parts – and every one pulled brings a donation to Shelter.

Thanks to your support for Spirit of Christmas crackers, last year the charity Shelter* could help an extra 10,000 people in need of advice and guidance. And, to add the festive cheer, over 1,000,000 pieces of plastic didn't end up in landfill. And so, the tradition grows!

*Support in Ireland provided by Focus Ireland

CARE FOR NATURE

By sustainably designing our Spirit of Christmas Crackers we have been able to avoid using any plastic parts, which otherwise could have ended up in landfill.

1,170,000 PIECES OF PLASTIC REMOVED... AND COUNTING!

LEADING THE WAY

Part of our ecoecho® range, Spirit of Christmas crackers build on our many 'decades' experience of working with materials and designs. They let you lead the way when it comes to combining sustainability, quality and style.

CARE FOR COMMUNITIES

Every Spirit of Christmas cracker pulled is a ray of hope for the thousands of families who need to stay in their homes or get back on their feet.

9% DONATED TO CHARITY

PARTNERING WITH SHELTER

Shelter helps millions of people every year struggling with bad housing or homelessness through advice, support and legal services. They campaign to make sure that, one day no one will have to turn to them for help.

Duni will donate a minimum of 9% +VAT of the selling price of the Spirit of Christmas Crackers to Shelter Trading Limited which donates its taxable profits to Shelter the National Campaign for Homeless People Limited (Registered Charity Number in England and Wales (263710) and Scotland (SC002327).

CERTIFICATIONS THAT INSPIRE CONFIDENCE

The products in our collection carry a variety of environmental and quality certifications. Here's what they mean:

ecoecho®

To qualify as ecoecho®, a significant part of the product must live up to at least two of these environmental standards: resource efficiency, renewability, compostability or responsible sourcing.

The OK Compost label, from the certification body TÜV Austria, indicates that the product is suitable for industrial composting and meets the stringent requirements of the European standard EN 13432.

The Forest Stewardship Council® (FSC) certification ensures the product is made of wood from forests managed in an environmentally appropriate, socially beneficial and economically viable manner.

The Nordic Swan Ecolabel identifies the best products on the market from an environmental point of view. For instance, it confirms our stearin candles consist of 90% renewable materials and minimise soot emissions.

The RAL Quality Mark is awarded by the European Quality Association for Candles. It guarantees the candle burns cleanly, contains no hazardous materials, retains its shape and is safe and reliable.

ILLUMINATE NATURE'S BEAUTY

The majestic harmony of a giraffe's pattern. Zebra stripes that radiate subtle energy. Branches gently swaying in the crisp winter's air. Many of the new candle holder designs for this Autumn/Winter collection are inspired by the infinite magic of the ecosphere. That way, they let you create rewarding guest experiences coloured by a sense of cosiness and connection to nature.

Remote control lets you change the mood in an instant. You can even individualise specific tables and areas

DUNI LEDS AND HOLDERS ARE GROWING IN POPULARITY ACROSS THE HORECA SECTOR. WHY?

"A few reasons particularly stand out: Creative freedom, Strong performance. Ease-of-use. Sustainable materials. And of course, costefficiency. For instance, compared to standard tealights, our Mini LED Lamp offers exceptional value when it comes to burn time. And there's no leftover waste either."

I'M DREAMIN' OF A *green* CHRISTMAS

As hotels, restaurants and caterers gear up for the busy festive period, sustainable approaches can often go out the window. That's unfortunate. With this in mind, we've gathered some tips to help you serve up eco-conscious festivities.

1 FESTIVE DECORATIONS REIMAGINE YOUR TREE

Christmas decorations, and trees in particular, are essential when it comes to creating holiday spirit. But from an environmental perspective, they can pose a challenge. Several companies in the HORECA industry are finding ingenious ways to meet this - and in doing so, deliver great guest experiences.

For instance, in 2015, Hong Kong-based hospitality group Langham hotels introduced a pioneering initiative: each Langham hotel around the world has to create a sustainable Christmas tree using materials that are neither new or store-bought. The results are as imaginative as they are striking. One team built a three-metre tall tree using hundreds of recycled bamboo cuts and nails!

2 TABLE SETTINGS (D)ECO-CHIC

Festive napkins help to set the mood and create a vibrant atmosphere for customers. During the busy Christmas period, with time running at a premium, HORECA managers often rely on single-use napkins and tableware to optimise efficiency and convenience. When it comes to minimising environmental impact, FSC®-certified and, ideally, compostable napkins are a must.

And, at a time of year when decorating tables with perishable fresh flowers can be costly - from an economic and environmental perspective - why not consider other eco-focused additions to the table? For instance, wheat, apples and seasonal vegetables make for striking displays. They work even better when they match the designs on napkins and table covers.

3 LIGHTING LEDING THE WAY

There is no denying it - lights are quintessentially festive. They can make any setting feel warm and cosy in a heartbeat. But for the eco-minded there is a downside: energy consumption. According to UK research, a display of a hundred five-watt bulbs, switched on for six hours a day, over Christmas, consumes 207 kWh.

The type of light you use makes a big difference. LED fairy lights will save you approximately 90% compared to standard incandescent fairy lights, and remain the most affordable and sustainable option. Aside from choosing LEDs, there are also a few other smart ways to help minimise energy consumption. For instance, by using a timer or opting for solid lights (incandescent lights use more electricity).

4 FOODS & BEVERAGES FESTIVE FOOD FOR THOUGHT

Traditionally, Christmas meals have been a meat-centric affair. But with the rise in popularity of plant-based diets and flexitarian eating philosophies, things are changing. Though it might be risky to remove turkey, mince pies and meatballs from the menu altogether, many of your customers may well appreciate a fresh, greener take on the classic Christmas menu.

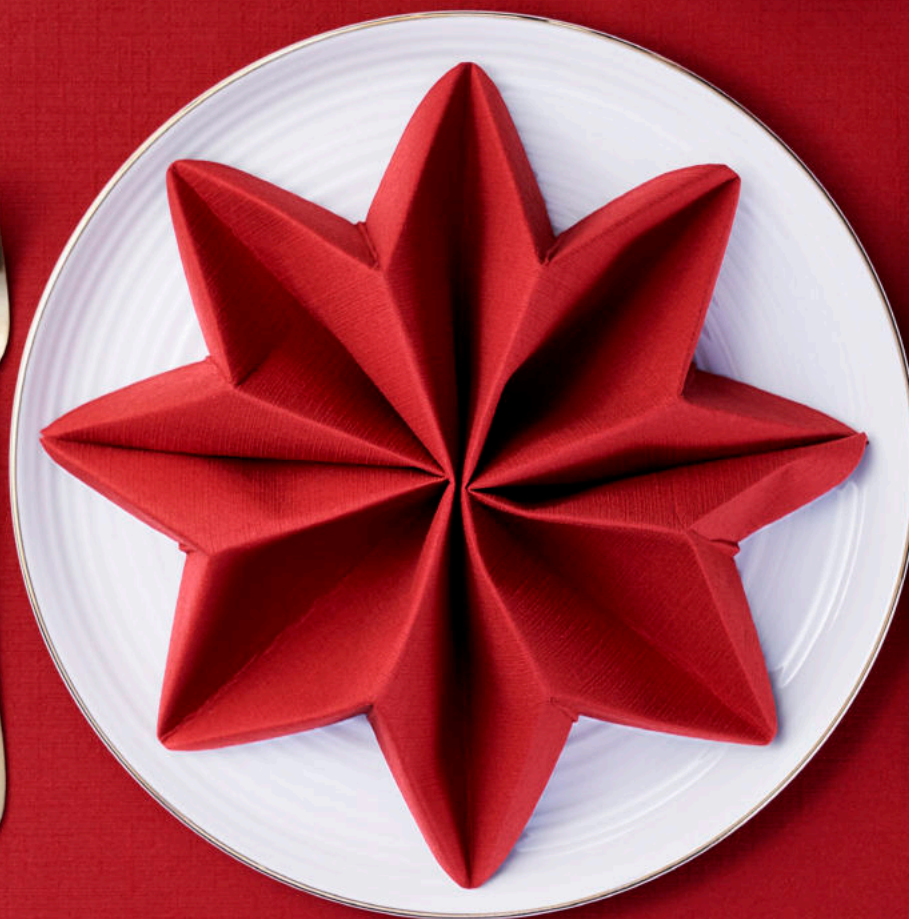

Currently, there is an increase in chefs experimenting with primarily plant-based dishes in which meat plays second fiddle. Instead of basing a meal around meat or fish, the lead is played by vegetables and legumes. Proteins from the animal kingdom are simply used to flavour and enhance the dish.

Sourcing is another key consideration, particularly as many customers today are asking about this. Aim to buy your supplies from local businesses and farmers' markets. Many regions have organisations and associations that aim to promote local suppliers, and will be able to assist you with lists and advice.

Once you've identified which suppliers are right for you, speak with them about what is in season, as buying seasonal produce helps to reduce environmental impact. Furthermore, watch your waste and consider teaming up with a local charity to donate leftovers to those in need. After all, Christmas is a time for giving.

5 EMPLOYEE EDUCATION STAND SHOULDER TO SHOULDER

To complete the 'Green Christmas' experience for your guests, you need to get all your staff onboard with your vision. After all, they are on the front-line, responsible for shaping the whole dining experience. Inspire them with your ideas and they will bring them to life to deliver a merry, mindful Xmas for one and all!

THE FESTIVE NAPKIN.

Want to give your guests a festive treat? **New softer, richer Dunilin®** napkins fold beautifully and offer the ultimate linen look and feel. Always flawless colours and shape, they never need to be checked or laundered. That frees up time - helpful during the holiday rush. Even better, after use you can put them out for composting. It is the season to care, after all.

BREAKFAST IS OFTEN THE LAST SIGNIFICANT EXPERIENCE FOR GUESTS BEFORE THEY POST REVIEWS. ANY TIPS FOR ENSURING THESE ARE GREAT?

"At breakfast, people can often still be a bit sleepy-headed. So, it's critical to provide a stress-free, smooth experience and cheerful staff with time to help. That's where our single-use napkins and table covers, and convenient LEDs, can be a big help. They enable teams to set tables faster, freeing up time for guests."

SOLUTION: To bring our client's vision to life, our customisation experts precisely recreated the restaurant's historical artwork on napkins and table covers. The result? Truly individual guest experiences.

LOCATION: Oostende Castle, NL

BUSINESS: Restaurant and brewery

CHRISTMAS FROST GLISTENS, CONVERSATIONS SPARKLE

Winter is all about celebrating the joy of togetherness. Office parties, Christmas lunches and New Year's festivities are times to enjoy good company, good food and good fun. That's where you can mix and match the coordinated designs, unicolours, lighting concepts and eco-conscious materials in our collection to set the stage for success.

WOW

LUXURIOUS &
SPECTACULAR

New softer, richer Dunilin® gives you the exclusive look and feel of linen – but unlike linen – flawless colours and folds. That way, you never need to spend time checking for imperfections. And after use, you just put the napkins out for composting, avoiding laundry hassles. Even better, you get a palette of designs, unicolours and new formats that lets you refresh your look, whenever it suits.
